

MUHAMMAD UMAR FAROOQ

AUTOMATION ENGINEER

momerfarooq223@gmail.com | +92 328 6403551 | Lahore, Pakistan
[GitHub](#) | [LinkedIn](#) | [Portfolio](#) | [LeetCode](#) | [Hugging Face](#) | [Kaggle](#)

PROFILE

BS Artificial Intelligence student at the University of Management & Technology, Lahore, maintaining a 3.85/4.00 CGPA on a 70% merit scholarship. Recognized with the **Dean's Award** (top 10% SGPA in the AI department) and **Rector's Award** (4.0 SGPA in a semester). Building production-grade autonomous agents, computer vision systems, NLP tools, cybersecurity assistants, and workflow automation with **24+** shipped projects including **12+** autonomous AI agents.

EDUCATION

University of Management & Technology (UMT), Lahore BS Artificial Intelligence 7th Semester CGPA: 3.85/4.00 - 70% Merit Scholarship awarded based on academic performance - Dean's Award - top 10% SGPA in the AI department - Rector's Award - 4.0 SGPA in a semester	Oct 2023 - Present
Punjab Group of Colleges (PGC), Lahore FSc Pre-Medical 970/1100 (88.2%) 50% Merit Scholarship	Sep 2021 - Jun 2023
Matric (Science) 1085/1100 (98.6%) Biology (A+), Chemistry (A+), Physics (A+)	Jun 2019 - Jun 2021

PROFESSIONAL DEVELOPMENT

Panaversity - Agentic AI Program Learning: Agentic AI, Claude Code, Tool Integration, MCP Focus: foundational agentic patterns and advanced agent design	Jan 2026 – Present
--	--------------------

EXPERIENCE

UMT - Peer Tutoring Academic Tutor Lahore, Pakistan - Tutored peers across AI and programming subjects, helping students grasp complex concepts through adaptive teaching methods. - Strengthened communication, mentoring, and leadership skills by translating technical ideas into clear learning steps.	Mar 2025 - Jul 2025
Customer Services & Operations Roles Remote & Lahore, Pakistan - Shopify Store (Nov 2024 - Jan 2025): resolved customer inquiries, handled orders/returns, and managed shipment updates. - SMZ Dispatch (Feb 2024 - Apr 2024): coordinated with US-based clients, improving cross-cultural communication and reliability. - Grasp Solutions (Jun 2024 - Sep 2024): managed high-volume client interactions and taxi-dispatch coordination under time pressure.	Feb 2024 - Jan 2025
Techohub — Agentic AI Developer Intern Hybrid & Lahore, Pakistan - Built and supported a domain-aware decision-intelligence platform for research, evidence-backed analysis, and structured report generation. - Supported deployment, client technical assistance, and implementation of AI and data-driven solutions.	June 2026 - Present

PROJECTS

Personal AI Employee Claude Code Flask Gmail API Playwright MCP-style tooling - Built an autonomous human-in-the-loop assistant that monitors Gmail, reasons over incoming tasks, and prepares approval-ready actions. - Connected real services through safe approval workflows, token-protected dashboard APIs, and reviewable automation outputs.	github.com/omerfarooq223/personal-ai-employee
AutoGrader Agent Python Groq/Gemini PyMuPDF openpyxl JavaScript UI - Built an AI grading system for assignment ZIPs with rubric generation, answer-key support, roster matching, and styled Excel reports. - Added dual-similarity plagiarism checks, chunked grading for long submissions, viva question generation, retries, and test coverage.	github.com/omerfarooq223/AutoGrader-Agent
InboxVerity AI FastAPI Groq Chrome Extension React Dashboard	github.com/omerfarooq223/InboxVerity-AI

- Created a Gmail/Outlook Chrome extension that extracts open emails, analyzes phishing risk, and displays an in-page safety sidebar.
- Combined heuristic features, URL/domain signals, Groq LLM classification, scan history, and clear user recommendations.

CareerPilot Agent

github.com/omerfarooq223/CareerPilot-Agent

FastAPI | Groq | SQLite | GitHub API | MCP | GitHub Actions

- Developed an Observe-Analyze-Plan agent that audits GitHub projects, tracks role readiness, and saves week-over-week progress snapshots.
- Built a web dashboard and contextual chat interface for repository questions, skill execution, and career-improvement nudges.

ClarityHire

github.com/omerfarooq223/AI-Resume-Screening-Bias-Detection

FastAPI | Clery | FairLearn | React | Responsible AI | Blind Screening

- Production-grade, human-in-the-loop recruitment platform that makes resume screening more transparent, explainable, and fair.
- Anonymizes candidate information, parses resumes and job descriptions, ranks candidates with a hybrid semantic and feature-based rubric, streams live agent execution, and audits synthetic demographic outcomes without using protected attributes for scoring.

SHAP-Explained Agentic IDS

github.com/omerfarooq223/shap-agentic-ids

Python | Flask | React | SHAP | LangGraph | Security ML

- Built a hybrid intrusion detection platform combining ML detection, SHAP explanations, LangGraph reasoning, and SOC-style alerting.
- Added role-aware dashboards, forensic chat, threat-intelligence context, and autonomous red-team stress testing concepts.

AutoReach Hub

github.com/omerfarooq223/parking-detection-system

Microsoft Graph API | SMTP | Gemini AI | Excel/CSV

- Built an asynchronous automation dispatcher supporting dual-channel email execution (Microsoft 365 OAuth2 & SMTP) and WhatsApp deep-linking with rate limiting, live previewing, and human-in-the-loop dispatch approvals.
- Integrated automated schema detection and Google Gemini LLMs to parse unstructured contact spreadsheets, generating personalized outreach campaigns with real-time deliverability health analytics.

AutoResearch Agent

github.com/omerfarooq223/autoresearch-agent

Python | Groq | Tavily | PDF generation

- Built an autonomous research agent that searches sources, synthesizes findings, and generates professional PDF reports.
- Automated repeatable report generation with structured sections, source gathering, and export-ready formatting.

Jira-Slack Integration

github.com/omerfarooq223/n8n-jira-slack

n8n | Jira | Slack | REST APIs | OpenRouter

- Implemented production-oriented n8n workflows for Slack slash commands, Jira issue creation, status updates, and sprint summaries.
- Used environment-based configuration, validation checks, runbooks, and modular workflow JSONs for safer import and reuse.

AND MANY MORE, [SEE HERE](#)

TECHNICAL SKILLS

AI & ML: LLM Integration (Groq, Gemini, LLaMA) | Agentic AI Architecture | Multi-agent Patterns | Machine Learning | Computer Vision (OpenCV, YOLO) | NLP | SHAP | Scikit-learn

Languages & Frameworks: Python (Advanced) | C++ | SQL | HTML/CSS/JavaScript | FastAPI | Flask | React/Vite

Tools: n8n Workflow Automation | Git/GitHub | PyMuPDF | openpyxl | python-docx | Jupyter | Docker | Postman | VS Code

ADDITIONAL

Languages: Urdu (Native) | English (Advanced) | Turkish (Basic)

Interests: Competitive programming | Open-source AI projects | Agentic AI development | Applied cybersecurity
